

PRODUCTION TECHNOLOGY

THE TROX PRODUCTION SYSTEM

Companies that want to fulfil customer requirements and exceed expectations with regard to criteria such as cost, quality, leadtime and delivery reliability need to operate an efficient production system. The TROX UK factory operates the global TROX production system. This incorporates elements of the KAIZEN philosophy and a wide variety of improvement tools and techniques. The TROX production system is intended to help all TROX GROUP production plants align their structures and their organisation in such a way that a company culture of continuous improvement is achieved.

HIGH PRODUCT QUALITY AS A RESULT OF HIGH PRODUCTION QUALITY

TROX UK applies a very strong focus on quality in all its design, development and production operations. The factory in Thetford, Norfolk has extensive modern manufacturing equipment and well-trained, flexible and competent employees. This ensures excellent production quality and short delivery lead-times around the globe. The Thetford factory is registered to ISO9001 quality standard and ISO14001 environmental standard. The factory also operates to high health and safety standards ensuring that all relevant legislation and codes of practice are adhered to. The working environment for all staff is clean and safe.

TROX PRODUCTION EXCELS BECAUSE OF ADVANCED HIGH-TECH EQUIPMENT. OUR MACHINERY FULFILS THE HIGHEST QUALITY DEMANDS, BOTH OUR OWN AND THOSE OF OUR CUSTOMERS

It allows us to develop solutions that are of outstanding quality and at the same time energy-efficient. To achieve our ambitious quality goals, we closely cooperate with suppliers to jointly develop and configure dedicated equipment that meets the requirements for our products and the requirements of our customers. A continuous programme of multiskilling and team development operates within the factory. This ensures the team is able to manufacture all products for customer requirement in an efficient, timely and quality focused way.
