TROX UK is recruiting for a Quality Control and Improvement Engineer, based at our manufacturing site in Thetford, Norfolk.

THE ROLE:

TROX UK is recruiting for a Quality Control and Improvement Engineer (Production).

Reporting to the Quality Manager, this Quality Control and Improvement Engineer (Production) will primarily focus on monitoring, supporting and continuous improvement of the TROX production team processes and activities which ensure that TROX UK manufactured product quality is maintained at the highest level. You will collaborate with cross-functional teams to address quality issues, drive continuous improvement, and contribute to building high-quality products that exceed customer expectations.

The post holder will be based within the location of TROX UK Ltd, Thetford, Norfolk

THE IDEAL CANDIDATE:

- Be passionate about quality and delivering excellence
- Must be computer literate and familiar with Microsoft Office Suite of programs with Word and Excel as a minimum with knowledge and use of logical formulae.
- Be able to read, follow and ensure compliance to documented written instructions and specifications.
- Have excellent analytical skills – to understand the complexity of some problems in order to identify the root cause(s) and execute corrective and improvement action(s).
- Have diplomatic and fair judgement in determining root cause where issues and/or concerns arise.
- Be of strong and resilient character to ensure quality standards are improved in a robust manufacturing environment.
- Have good planning, time management and organisational skills.
- Have good verbal communication and written skills.
- To be able to work with minimal supervision.
- To be approachable for feedback or receipt of concerns.
- Be confident to discuss, enforce and recommend concerns, solutions and constraints at the highest level.
- Have the ability to train others in updated quality processes to ensure quality is maintained.
- Have a flexible approach and the ability to work as part of a team and/or individually as required.

KNOWLEDGE AND SKILLS:

The ideal candidate will possess a strong background in engineering and quality control, an exceptional attention to detail and a proactive mindset. You should be educated to HNC minimum in a Quality or Mechanical Engineering background or have the equivalent work-related experience in a similar environment.

ADDITIONAL INFORMATION:

TROX UK offers a range of benefits to all employees in addition to a good and safe working environment, a good pension scheme, sick pay and critical illness insurance scheme.

If you are passionate about quality and delivering excellence, we encourage you to apply and become a valued member of our team.

HOW TO APPLY:

If you would like further information or to discuss informally regarding this opportunity, please contact Clare Pulham, TROX UK HR Manager.

Please send your application and CV to Clare Pulham, TROX UK HR Manager – hr@troxuk.co.uk

Closing date for applications: **30 April 2024.**
