The TROX Group is committed to the 17 Sustainable Development Goals (SDGs) of the United Nations – and recently has officially pledged to also support the 10 principles of the [United Nations Global Compact](#) (UNGC).

With this commitment, TROX declares its will to comply with certain minimum social and ecological standards in the future with the goal of an inclusive and sustainable global economy for the benefit of all people:

- > Businesses should support and respect the protection of internationally proclaimed human rights; and
- > make sure that they are not complicit in human rights abuses.
- > Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining;
- > the elimination of all forms of forced and compulsory labour;
- > the effective abolition of child labour; and
- > the elimination of discrimination in respect of employment and occupation.
- > Businesses should support a precautionary approach to environmental challenges;
- > undertake initiatives to promote greater environmental responsibility; and
- > encourage the development and diffusion of environmentally friendly technologies.
- > Businesses should work against corruption in all its forms, including extortion and bribery.

More than 19,000 companies and organisations are already signatories of the UN Global Compact - and now TROX is too.
